

Bisley Office Furniture is a UK manufacturer of steel storage for the office. Operating from Bisley, Surrey and Newport, South Wales and employing nearly a thousand people, Bisley cabinets are renowned worldwide.

Bisley use the DPS LogiX Suite in the UK as a strategic and operational planning tool.

Graeme Winship, Director of Logistics, says:

"After a strategic review of the distribution requirements, Bisley embarked on a program of updating their supply chain processes. Part of this update included the purchase and implementation of the LogiX suite of planning tools. This has provided a major improvement to our operation and resulted in substantial operational cost savings and administration benefits. The implementation was on-time, on budget and the customer support first rate."
