

A major business issue for DTS Logistics was trying to achieve Service Level Agreements that really mean 100% on time in full service.

After careful consideration DTS Logistics chose DPS and LogiX with immediate results.

Thomas Foley, General Manager, DTS Logistics says:

“There were very tight timescales to our recent major scheduling projects with all our retail blue chip High Street customers, and we are all too aware that these would not have been met without your attention to our deadlines and assistance with DPS products.”

“DPS has enabled us in no small measure, to deliver and implement the services required by our customers, on time, within budgets, and with significant and comprehensive training.”
