

**DPS International**  
Global Logistics Solutions

**Reliance**

 **Reliance**  
SECURE • TASK • MANAGEMENT

**Reliance Secure Task Management** is a leading provider of secure outsourced services within the UK Criminal Justice System. In 2001, we started to extend our services beyond the provision of prisoner transport and today our analytical skills, management techniques and dedicated project teams support several functions of various authorities and agencies across the UK.

**Paul Higgins, IT Director, says:**

“We have been impressed, not only with the product, but with the service we are receiving from DPS LogiX. There has been an ongoing involvement from the beginning of our relationship to produce solutions to our most pressing logistics issues.

People make a good relationship and the helpful way that we have worked together, pre and post agreement, enables us to openly recommend DPS as a good supplier to producing solutions for automated logistics requirements”
